

Rent-a-Tool Library	Specialised tools (like power drills) are expensive and take up space for a one-time use.	New homeowners on a tight budget.
Mobile Bike Repair	It is difficult and awkward to transport a broken bicycle to a repair shop.	City commuters who rely on their bikes for work.
Smart Plant Pot	People often forget to water their indoor plants or don't know how much light they need.	First-time plant owners who work long hours.
Subscription Kids' Clothing	Children outgrow their clothes every few months, leading to waste and high costs.	Parents of babies and toddlers.
Elderly Tech Support	Modern technology is confusing and can lead to isolation if not understood.	Retirees who want to stay connected with family.
Eco-Friendly Lunch Box	Disposable plastic wrap and foil create massive amounts of landfill waste daily.	Office workers who bring their own lunch.
On-Demand Tutor App	Students often get stuck on homework late at night when teachers aren't available.	High school students preparing for exams.
Personal Grocery Shopper	Grocery shopping is physically demanding and time-consuming.	Elderly people with limited mobility.
Skill-Swap Platform	Professional training is expensive, but many people have skills they could trade for free.	Freelancers and small business owners.
Quiet Coworking Space	Working from home can be distracting and lonely, but private offices are too expensive.	Remote workers in small apartments.
